**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

Acknowledgement is made of the Amendment and Change of Address, both filed 01/30/02.

Claims 1-8 are pending. Claims 1-8 are rejected.

The Applicant's arguments have been fully considered, but are not found to be persuasive. The following are the grounds for rejection:

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoffman *et al.* (US Pat. No. 5,538,736).

Hoffman *et al.* disclose an active-substance containing plaster for the controlled release of active substances to the skin comprising two different adhesives, each with distinct flowable adhesion properties (see entire reference).

Applicant's arguments have been fully considered, but are not found to be persuasive. In response to the Applicant's arguments that Hoffman *et al.* fails to disclose the instantly claimed invention, the Examiner respectfully disagrees.

The prior art teaches an active-substance containing plaster that comprises the same ingredients and the same purpose as desired by the instant invention. There is no invention in the determination of suitable and effective levels of tackiness, for the prior art clearly suggests a two-part adhesive active-substance device wherein the levels of adhesion provided are different. Furthermore, one of ordinary skill in the pharmaceutical art at the time of the invention would be capable of resolving the degree of tackiness required through routine and simple experimentation.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
